The Membrane Keyboard Company Ltd , an established and ISO accredited manufacturer of custom keyboards and assembled electronic products, require an enthusiastic and flexible team member to join our Production Department.

The successful candidate will be required to undertake a number of roles both independently and as part of team whilst reporting to departmental managers including:-

*Electro/Mechanical Assembly.

*Platen Press Operation.

*Laminating.

*Test.

*Willingness to learn other forms of assembly and running machinery/equipment depending on production requirements.

*Completing paperwork for outbound shipments.

The successful candidate must have excellent verbal, written and numerical communication skills and be competent in using e-mail, Microsoft Word and Microsoft Excel.

The ability to work to set processes and procedures and a commitment to ensuring quality is of the highest standard is essential.

Experience is preferred; however, full training will be given.

This a 6 month contract (subject to a probationary period) based on 38 ½ hours a week. Wages to be discussed.
